Subject Index, Volume 58

aerial imagery
road extraction; urban areas; image understanding; multi-view imagery; road lanes; road markings 58/1–2 (June 03): 83–98

aerial images
GIS database; domain knowledge; 3D reconstruction; hypotheses generation; fitting; evaluation 58/3–4 (Jan 04): 202–224

aerial triangulation
line-photogrammetry; feature-based orientation; automation; linear features 58/5–6 (July 04): 315–329

affine orientation model
high-resolution satellite imagery; sensor orientation; 3D geopositioning; ikonos imagery 58/5–6 (July 04): 275–288

annealing
SAR; polarimetric decomposition; segmentation; classification 58/1–2 (June 03): 55–70

augmented reality
navigation; silhouettes; building detection; image registration; image orientation; 3D city models; mobile systems; location-based services; multi-sensor systems 58/1–2 (June 03): 31–42

automation
aerial triangulation; line-photogrammetry; feature-based orientation; linear features 58/5–6 (July 04): 315–329

AVIRIS
hyperspectral; SAR; TOPSAR; IHS transformation; image fusion; urban hazards 58/1–2 (June 03) 19–30

building detection
navigation; silhouettes; image registration; image orientation; augmented reality; 3D city models; mobile systems; location-based services; multi-sensor systems 58/1–2 (June 03): 31–42

SAR images; optical images; edge extraction; fusion 58/1–2 (June 03): 71–82

building reconstruction
interferometric SAR; LIDAR; built-up areas 58/1–2 (June 03): 113–123

buildings
geospatial data; image analysis; knowledge-based; multi-cue integration; operational systems; commercial software systems; semi-automation; mapping; object extraction; object revision; roads 58/3–4 (Jan 04): 129–151

built-up areas
interferometric SAR; LIDAR; building reconstruction 58/1–2 (June 03): 113–123

change detection
classification; object recognition; digital elevation model; decision trees 58/3–4 (Jan 04): 187–201

classification; object-oriented image analysis; data fusion 58/3–4 (Jan 04): 225–238

classification
SAR; polarimetric decomposition; segmentation; annealing 58/1–2 (June 03): 55–70

change detection; object recognition; digital elevation model; decision trees 58/3–4 (Jan 04): 187–201

change detection; object-oriented image analysis; data fusion 58/3–4 (Jan 04): 225–238

color
roads; 3-D reconstruction; map updating; knowledge-based image analysis; context; edge matching; DSM/DTM; roadmarks; multiple cue integration; performance evaluation; semi-automated system 58/3–4 (Jan 04): 166–186

commercial software systems
geospatial data; image analysis; knowledge-based; multi-cue integration; operational systems; semi-automation; mapping; object extraction; object revision; roads; buildings 58/3–4 (Jan 04): 129–151

computer-assisted learning
remote sensing; image arithmetic; UML; object-oriented system development 58/5–6 (July 04): 265–274

conceptual modeling
GIS; data model; multi-dimensional; dynamic; transportation networks; roads 58/5–6 (July 04): 301–314

context
roads; 3-D reconstruction; map updating; knowledge-based image analysis; color; edge matching; DSM/DTM; roadmarks; multiple cue integration; performance evaluation; semi-automated system 58/3–4 (Jan 04): 166–186

database verification
GIS; knowledge-based image analysis; road network extraction; parameter settings; quality control; reliability; performance analysis 58/3–4 (Jan 04): 152–165

doi:10.1016/S0924-2716(04)00021-8

data fusion
multiresolution analysis; multiscale analysis; image pyramid; wavelet; remote sensing 58/1–2 (June 03): 4–18

satellite remote sensing; land surface temperature; landcover classification; urban climatology 58/1–2 (June 03): 43–54

change detection; classification; object-oriented image analysis 58/3–4 (Jan 04): 225–238

data model
GIS; conceptual modeling; multi-dimensional; dynamic; transportation networks; roads 58/5–6 (July 04): 301–314

3D city models
navigation; silhouettes; building detection; image registration; image orientation; augmented reality; mobile systems; location-based services; multi-sensor systems 58/1–2 (June 03): 31–42

decision trees
change detection; classification; object recognition; digital elevation model 58/3–4 (Jan 04): 187–201

3D geopositioning
high-resolution satellite imagery; sensor orientation; affine orientation model; ikonos imagery 58/5–6 (July 04): 275–288

digital elevation model
change detection; classification; object recognition; decision trees 58/3–4 (Jan 04): 187–201

domain knowledge
aerial images; GIS database; 3D reconstruction; hypotheses generation; fitting; evaluation 58/3–4 (Jan 04): 202–224

3-D reconstruction
roads; map updating; knowledge-based image analysis; color; context; edge matching; DSM/DTM; roadmarks; multiple cue integration; performance evaluation; semi-automated system 58/3–4 (Jan 04): 166–186

3D reconstruction
aerial images; GIS database; domain knowledge; hypotheses generation; fitting; evaluation 58/3–4 (Jan 04): 202–224

DSM/DTM
roads; 3-D reconstruction; map updating; knowledge-based image analysis; color; context; edge matching; roadmarks; multiple cue integration; performance evaluation; semi-automated system 58/3–4 (Jan 04): 166–186

dynamic
GIS; conceptual modeling; data model; multi-dimensional; transportation networks; roads 58/5–6 (July 04): 301–314

edge extraction
building detection; SAR images; optical images; fusion 58/1–2 (June 03): 71–82

edge matching
roads; 3-D reconstruction; map updating; knowledge-based image analysis; color; context; DSM/DTM; roadmarks; multiple cue integration; performance evaluation; semi-automated system 58/3–4 (Jan 04): 166–186

evaluation
aerial images; GIS database; domain knowledge; 3D reconstruction; hypotheses generation; fitting 58/3–4 (Jan 04): 202–224

feature-based orientation
aerial triangulation; line-photogrammetry; automation; linear features 58/5–6 (July 04): 315–329

fitting
aerial images; GIS database; domain knowledge; 3D reconstruction; hypotheses generation; evaluation 58/3–4 (Jan 04): 202–224

fusion
building detection; SAR images; optical images; edge extraction 58/1–2 (June 03): 71–82

fuzzy classification
object-oriented image analysis; remote sensing; multi-resolution segmentation; GIS 58/3–4 (Jan 04): 239–258

geospatial data
image analysis; knowledge-based; multi-cue integration; operational systems; commercial software systems; semi-automation; mapping; object extraction; object revision; roads; buildings 58/3–4 (Jan 04): 129–151

GIS
database verification; knowledge-based image analysis; road network extraction; parameter settings; quality control; reliability; performance analysis 58/3–4 (Jan 04): 152–165

object-oriented image analysis; remote sensing; multi-resolution segmentation; fuzzy classification 58/3–4 (Jan 04): 239–258

conceptual modeling; data model; multi-dimensional; dynamic; transportation networks; roads 58/5–6 (July 04): 301–314

GIS database
aerial images; domain knowledge; 3D reconstruction; hypotheses generation; fitting; evaluation 58/3–4 (Jan 04): 202–224

high-resolution satellite imagery
sensor orientation; affine orientation model; 3D geopositioning; ikonos imagery 58/5–6 (July 04): 275–288

HYDICE
hyperspectral; sensor modelling; platform modelling; linear features 58/5–6 (July 04): 289–300

hyperspectral
SAR; AVIRIS; TOPSAR; IHS transformation; image fusion; urban hazards 58/1–2 (June 03): 19–30

HYDICE; sensor modelling; platform modelling; linear features 58/5–6 (July 04): 289–300

hyperspectral image data
shape detection; linear spectral unmixing; urban surface materials 58/1–2 (June 03): 99–112

hypotheses generation
aerial images; GIS database; domain knowledge; 3D reconstruction; fitting; evaluation 58/3–4 (Jan 04): 202–224

IHS transformation
hyperspectral; SAR; AVIRIS; TOPSAR; image fusion; urban hazards 58/1–2 (June 03): 19–30

ikonos imagery
high-resolution satellite imagery; sensor orientation; affine orientation model; 3D geopositioning 58/5–6 (July 04): 275–288

image analysis
geospatial data; knowledge-based; multi-cue integration; operational systems; commercial software systems; semi-automation; mapping; object extraction; object revision; roads; buildings 58/3–4 (Jan 04): 129–151

image arithmetic
computer-assisted learning; remote sensing; UML; object-oriented system development 58/5–6 (July 04): 265–274

image fusion
hyperspectral; SAR; AVIRIS; TOPSAR; IHS transformation; urban hazards 58/1–2 (June 03): 19–30

image orientation
navigation; silhouettes; building detection; image registration; augmented reality; 3D city models; mobile systems; location-based services; multi-sensor systems 58/1–2 (June 03): 31–42

image pyramid
multiresolution analysis; multiscale analysis; wavelet; data fusion; remote sensing 58/1–2 (June 03): 4–18

image registration
navigation; silhouettes; building detection; image orientation; augmented reality; 3D city models; mobile systems; location-based services; multi-sensor systems 58/1–2 (June 03): 31–42

image understanding
road extraction; urban areas; aerial imagery; multi-view imagery; road lanes; road markings 58/1–2 (June 03): 83–98

interferometric SAR
LIDAR; built-up areas; building reconstruction 58/1–2 (June 03): 113–123

knowledge-based
geospatial data; image analysis; multi-cue integration; operational systems; commercial software systems; semi-automation; mapping; object extraction; object revision; roads; buildings 58/3–4 (Jan 04): 129–151

knowledge-based image analysis
GIS; database verification; road network extraction; parameter settings; quality control: reliability; performance analysis 58/3–4 (Jan 04): 152–165

roads; 3-D reconstruction; map updating; color; context; edge matching; DSM/DTM; roadmarks; multiple cue integration; performance evaluation; semi-automated system 58/3–4 (Jan 04): 166–186

landcover classification
satellite remote sensing; data fusion; land surface temperature; urban climatology 58/1–2 (June 03): 43–54

land surface temperature
satellite remote sensing; data fusion; landcover classification; urban climatology 58/1–2 (June 03): 43–54

LIDAR
interferometric SAR; built-up areas; building reconstruction 58/1–2 (June 03): 113–123

linear features
HYDICE; hyperspectral; sensor modelling; platform modelling 58/5–6 (July 04): 289–300

aerial triangulation; line-photogrammetry; feature-based orientation; automation 58/5–6 (July 04): 315–329

linear spectral unmixing
shape detection; hyperspectral image data; urban surface materials 58/1–2 (June 03): 99–112

line-photogrammetry
aerial triangulation; feature-based orientation; automation; linear features 58/5–6 (July 04): 315–329

location-based services
navigation; silhouettes; building detection; image registration; image orientation; augmented reality; 3D city models; mobile systems; multi-sensor systems 58/1–2 (June 03): 31–42

mappinggeospatial data; image analysis; knowledge-based; multi-cue integration; operational systems; commercial software systems; semi-automation; object extraction; object revision; roads; buildings 58/3–4 (Jan 04): 129–151

map updating
roads; 3-D reconstruction; knowledge-based image analysis; color; context; edge matching; DSM/DTM; roadmarks; multiple cue integration; performance evaluation; semi-automated system 58/3–4 (Jan 04): 166–186

mobile systems
navigation; silhouettes; building detection; image registration; image orientation; augmented reality; 3D city models; location-based services; multi-sensor systems 58/1–2 (June 03): 31–42

multi-cue integration
geospatial data; image analysis; knowledge-based; operational systems; commercial software systems; semi-automation; mapping; object extraction; object revision; roads; buildings 58/3–4 (Jan 04): 129–151

multi-dimensional
GIS; conceptual modeling; data model; dynamic; transportation networks; roads 58/5–6 (July 04): 301–314

multiple cue integration
roads; 3-D reconstruction; map updating; knowledge-based image analysis; color; context; edge matching; DSM/DTM; roadmarks; performance evaluation; semi-automated system 58/3–4 (Jan 04): 166–186

multiresolution analysis
multiscale analysis; image pyramid; wavelet; data fusion; remote sensing 58/1–2 (June 03): 4–18

multi-resolution segmentation
object-oriented image analysis; remote sensing; fuzzy classification; GIS 58/3–4 (Jan 04): 239–258

multiscale analysis
multiresolution analysis; image pyramid; wavelet; data fusion; remote sensing 58/1–2 (June 03): 4–18

multi-scale analysis
remote sensing; tropical forest cover; variogram; spatial variability structure 58/5–6 (July 04): 330–341

multi-sensor systems
navigation; silhouettes; building detection; image registration; image orientation; augmented reality; 3D city models; mobile systems; location-based services 58/1–2 (June 03): 31–42

multi-view imagery
road extraction; urban areas; aerial imagery; image understanding; road lanes; road markings 58/1–2 (June 03): 83–98

navigation
silhouettes; building detection; image registration; image orientation; augmented reality; 3D city models; mobile systems; location-based services; multi-sensor systems 58/1–2 (June 03): 31–42

object extraction
geospatial data; image analysis; knowledge-based; multi-cue integration; operational systems; commercial software systems; semi-automation; mapping; object revision; roads; buildings 58/3–4 (Jan 04): 129–151

object-oriented image analysis
change detection; classification; data fusion 58/3–4 (Jan 04): 225–238

remote sensing; multi-resolution segmentation; fuzzy classification; GIS 58/3–4 (Jan 04): 239–258

object-oriented system development
computer-assisted learning; remote sensing; image arithmetic; UML 58/5–6 (July 04): 265–274

object recognition
change detection; classification; digital elevation model; decision trees 58/3–4 (Jan 04): 187–201

object revision
geospatial data; image analysis; knowledge-based; multi-cue integration; operational systems; commercial software systems; semi-automation; mapping; object extraction; roads; buildings 58/3–4 (Jan 04): 129–151

operational systems
geospatial data; image analysis; knowledge-based; multi-cue integration; commercial software systems; semi-automation; mapping; object extraction; object revision; roads; buildings 58/3–4 (Jan 04): 129–151

optical images
building detection; SAR images; edge extraction; fusion 58/1–2 (June 03): 71–82

parameter settings
GIS; database verification; knowledge-based image analysis; road network extraction; quality control; reliability; performance analysis 58/3–4 (Jan 04): 152–165

performance analysis
GIS; database verification; knowledge-based image analysis; road network extraction; parameter settings; quality control; reliability 58/3–4 (Jan 04): 152–165

performance evaluation
roads; 3-D reconstruction; map updating; knowledge-based image analysis; color; context; edge matching; DSM/DTM; roadmarks; multiple cue integration; semi-automated system 58/3–4 (Jan 04): 166–186

platform modelling
HYDICE; hyperspectral; sensor modelling; linear features 58/5–6 (July 04): 289–300

polarimetric decomposition
SAR; segmentation; classification; annealing 58/1–2 (June 03): 55–70

quality control
GIS; database verification; knowledge-based image analysis; road network extraction; parameter settings; reliability; performance analysis 58/3–4 (Jan 04): 152–165

reliability
GIS; database verification; knowledge-based image analysis; road network extraction; parameter settings; quality control; performance analysis 58/3–4 (Jan 04): 152–165

remote sensing
multiresolution analysis; multiscale analysis; image pyramid; wavelet; data fusion 58/1–2 (June 03): 4–18

object-oriented image analysis; multi-resolution segmentation; fuzzy classification; GIS 58/3–4 (Jan 04): 239–258

computer-assisted learning; image arithmetic; UML; object-oriented system development 58/5–6 (July 04): 265–274

tropical forest cover; variogram; spatial variability structure; multi-scale analysis 58/5–6 (July 04): 330–341

road extraction
urban areas; aerial imagery; image understanding; multi-view imagery; road lanes; road markings 58/1–2 (June 03): 83–98

road lanes
road extraction; urban areas; aerial imagery; image understanding; multi-view imagery; road markings 58/1–2 (June 03): 83–98

road markings
road extraction; urban areas; aerial imagery; image understanding; multi-view imagery; road lanes 58/1–2 (June 03): 83–98

roadmarks
roads; 3-D reconstruction; map updating; knowledge-based image analysis; color; context; edge matching; DSM/DTM; multiple cue integration; performance evaluation; semi-automated system 58/3–4 (Jan 04): 166–186

road network extraction
GIS; database verification; knowledge-based image analysis; parameter settings; quality control; reliability; performance analysis 58/3–4 (Jan 04): 152–165

roads
geospatial data; image analysis; knowledge-based; multi-cue integration; operational systems; commercial software systems; semi-automation; mapping; object extraction; object revision; buildings 58/3–4 (Jan 04): 129–151

GIS; conceptual modeling; data model; multi-dimensional; dynamic; transportation networks 58/5–6 (July 04): 301–314

3-D reconstruction; map updating; knowledge-based image analysis; color; context; edge matching; DSM/DTM; roadmarks; multiple cue integration; performance evaluation; semi-automated system 58/3–4 (Jan 04): 166–186

SAR
hyperspectral; AVIRIS; TOPSAR; IHS transformation; image fusion; urban hazards 58/1–2 (June 03): 19–30

polarimetric decomposition; segmentation; classification; annealing 58/1–2 (June 03): 55–70

SAR images
building detection; optical images; edge extraction; fusion 58/1–2 (June 03): 71–82

satellite remote sensing
data fusion; land surface temperature; landcover classification; urban climatology 58/1–2 (June 03): 43–54

segmentation
SAR; polarimetric decomposition; classification; annealing 58/1–2 (June 03): 55–70

semi-automated system
roads; 3-D reconstruction; map updating; knowledge-based image analysis; color; context; edge matching; DSM/DTM; roadmarks; multiple cue integration; performance evaluation 58/3–4 (Jan 04): 166–186

semi-automation
geospatial data; image analysis; knowledge-based; multi-cue integration; operational systems; commercial software systems; mapping; object extraction; object revision; roads; buildings 58/3–4 (Jan 04): 129–151

sensor modelling
HYDICE; hyperspectral; platform modelling; linear features 58/5–6 (July 04): 289–300

sensor orientation
high-resolution satellite imagery; affine orientation model; 3D geopositioning; ikonos imagery 58/5–6 (July 04): 275–288

shape detection
linear spectral unmixing; hyperspectral image data; urban surface materials 58/1–2 (June 03): 99–112

silhouettes
navigation; building detection; image registration; image orientation; augmented reality; 3D city models; mobile systems; location-based services; multi-sensor systems 58/1–2 (June 03): 31–42

spatial variability structure
remote sensing; tropical forest cover; variogram; multi-scale analysis 58/5–6 (July 04): 330–341

TOPSAR
hyperspectral; SAR; AVIRIS; IHS transformation; image fusion; urban hazards 58/1–2 (June 03): 19–30

transportation networks
GIS; conceptual modeling; data model; multi-dimensional; dynamic; roads 58/5–6 (July 04): 301–314

tropical forest cover
remote sensing; variogram; spatial variability structure; multi-scale analysis 58/5–6 (July 04): 330–341

UML
computer-assisted learning; remote sensing; image arithmetic; object-oriented system development 58/5–6 (July 04): 265–274

urban areas
road extraction; aerial imagery; image understanding; multi-view imagery; road lanes; road markings 58/1–2 (June 03): 83–98

urban climatology
satellite remote sensing; data fusion; land surface temperature; landcover classification 58/1–2 (June 03): 43–54

urban hazards
hyperspectral; SAR; AVIRIS; TOPSAR; IHS transformation; image fusion 58/1–2 (June 03): 19–30

urban surface materials
shape detection; linear spectral unmixing; hyperspectral image data 58/1–2 (June 03): 99–112

variogram
remote sensing; tropical forest cover; spatial variability structure; multi-scale analysis 58/5–6 (July 04): 330–341

wavelet
multiresolution analysis; multiscale analysis; image pyramid; data fusion; remote sensing 58/1–2 (June 03): 4–18
